

technoCASE

IP 66 - Optional: IP 67

technoCASE is a modern range of plastic enclosures for industrial electronics and electrical equipment. The enclosures feature snap-on design strips which hide the lid screws and mounting channels, and give the enclosures their own individual appearance.

The design strips are available in light grey (standard), red, green, blue or yellow for individual colour coding or to match company colours. Both the lid and base have a recess for mounting a membrane keypad, face plate or product label. A large range of standard sizes is available. There is also an option to combine various lids and bottoms with each other, increasing the variety. Threaded screw bosses in the lid and base can be used for fitting circuit boards, mounting plates etc. Compatible cable glands, terminal rails and other accessories are also available.

We can supply technoCASE enclosures fully customised to your requirements.

Enclosure sizes
25 sizes

Dimensions L x W x H

80 x 80 x 60 mm to 360 x 240 x 160 mm

Further information
Integrated recess for membrane keypads or front plates

Functional and extensive range of accessories

Lid and bottom can be replaced if needed

Enclosure can be supplied as a flush-mounting, surface-mounting or top hat rail mounting model

Transparent lid available on request

Full protective insulation in accordance with VDE 0100

Enclosure
ABS halogen-free, similar to RAL 7035 light grey

1° mould slope for casting ejection

Special materials and colours on request

Flammability
UL 94 HB

Fastening
Separate screw channels outside of the enclosure interior.

Internal mounting
Fastening option for self-grooving screws on the base of the enclosure and in the lid

Ingress protection
IP 66 / EN 60529
Optional: IP 67 / EN 60529

Gasket
Silicone gasket, temperature resistance: -50°C to +140°C

Lid screws
Stainless steel 1.4567, captive

Customising
