

type PPD 90 standard 520x600

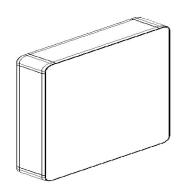

useable front-plate area= 470x550mm area reduction generated by lock and hinge combination

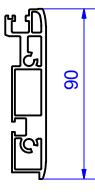

optional

- -unmachined
- -with coupling cutout on top or bottom -with profile side handles left and right or on the bottom

	aluminium profile (AIMgSi0,5) anodized , corner (AISi 12)	front panel	aluminium 3mm, anodized
rear panel	hinges and lock	corner covers	PA RAL 7035
protection class	IP65 EN 60529	Itolerances	outside dimension+/-1mm; others DIN 2768-m

331.090.004 profiPANEL Standard 17"-21"

Product overview

Material	Extruded aluminium	
Protection Class	IP 65/ EN 60529	
Color	Anodised silver, RAL 7035	
Certifications	UL (optional)	
Length (L)	600 mm	
Width (W)	520 mm	
Height (H)	90 mm	

profiPANEL Standard

THE DESIGN HMI ENCLOSURE IN STANDARD SIZES

Up to IP 65

The key product features:

- Enclosure material: aluminium profiles corner covers, RAL 7035
- Enclosure surface: anodised silver
- Available in 4 Standard Sizes
- Installation depths: 90 mm
- · Select enclosure dimensions based on the planned internal mountings
- Define the machining of the front plate required
- Define the position of the suspension arm fixing
- On request, select pro handle(s). Possible on the side or at the bottom of the enclosure
- Enclosure seal: PUR

The economical version of the HMI/control enclosure range with a depth of 90 mm. For everyone in a rush, who requires only a small batch size or who does not need millimetre-precise dimensions: "We have developed the "profiPANEL Standard" for these customers. Four standard sizes from a 90 mm basic profile with individually configurable front plate into which every panel PC and additional buttons or switches can be incorporated. The rear wall (on the longer side of the enclosure) features locks and hinges. profiPANEL Standard is quickly available and inexpensive.

To configure this product, please contact us without obligation. We are happy to help.

The benefits of "profiPANEL Standard" at a glance:

- Four economical standard sizes to fit panel PCs up to 21"
- · Inexpensive alternative due to standardisation
- Shorter delivery times as components are held in stock
- Customised machining of the front plate
- Also ideal for smaller order volumes
- Ingress protection IP 65

Just 4 simple steps to a perfectly coordinated, economical control enclosure: Select enclosure

dimensions based on the planned internal mounting. Define the machining of the front plate required. Define the position of the suspension arm fixing. Select optional handle(s). Side or bottom only available.

Enclosure sizes

Four standard sizes

L x W x H 400 x 400 x 90 mm for internal mountings from 10" to 12"

L x W x H 400 x 520 x 90 mm for internal mountings from 12" to 15"

L x W x H 520 x 520 x 90 mm for internal mountings from 15" to 17"

L x W x H 520 x 600 x 90 mm for internal mountings from 17" to 21"

Further information

Minimalist, multi-variable design for modern machines Front plate is permanently connected to the enclosure, mounted almost edgeless and flush

Enclosure

Extruded aluminium PA corner covers, RAL 7035, 9005, 3020 or 5017 Standard front plates: Aluminium 3 mm, Al Mg 1, silver anodised Finished front plates, lasered, engraved or printed Optional: Profile handle, PA, RAL 7035 and extruded aluminium Enclosure lock (standard): Locks and exterior hinges (on the longer side of the enclosure)

Fastening

With coupling on the ROLEC suspension arm system profiPLUS 50

Internal mountings Slide-in contours for spring nuts M4/M5

Ingress protection IP 65 / EN 60529

Surface Anodised

Full-Service-Products

Customization according to your wishes.

Everything begins with individual advice. We'll be pleased to support you with your project and find solutions for every requirement. Customer-specific solutions are our speciality.

Test our products with your internal mounting. We'll be pleased to send you a sample enclosure for inspection with no strings attached.

We'll manufacture every enclosure for you according to your exact specifications - whether they involve precise drilling or large tolerance.

Thanks to our modern CNC production, we can quickly and efficiently mill custom-fit cut-outs and contours to match your exact specifications.

Our services also include engraving your logo and other elements, which we can of course perform in any colour you desire.

We can process stainless steel enclosures and plates quickly and reliably according to your individual requirements thanks to our in-house lasering centre.

We can powder coat enclosures, command enclosures and suspension systems in any RAL colour you desire. Custom colours are of course also possible.

We can also paint all our enclosures in any RAL colour you desire. The application of primer and special colour

structures are possible, as well.

If desired, we can apply your logo and lettering or other markings using serigraph printing.

Digital printing is particularly worthwhile for low-volume order s and for realising complex pa tterns or images.

We offer our conFORM low-price standard EMC enclosure to protect your internal mounting against electromagnetic radiation. On request, we can also supply an EMC-compliant version of any other ROLEC enclosure.

If you have any requirements for services not listed here, please ask us. Customer-specific solutions are our speciality. We also are keen to take on unusual tasks.

We will help you with those challenges that many others would give up on.

Our Service

We are able to offer the right made-tomeasure display for all our enclosures - in varying sizes and degrees of robustness depending on the application.

ROLEC's portfolio also includes matching front plates, mounting plate, supporting rails and terminal blocks as well as a range of cable glands, blanking plugs etc.

Would you like to have all your components supplied already assembled? No problem. Our assembly team will be pleased to perform all assembly work on your behalf.
